

GREETINGS from OAKWOOD DAFFODILS: MARCH 2017

Welcome to Oakwood Daffodil's 34th annual listing of Midwestern-raised, bred, and acclimatized daffodils. I have grown daffodils on a singular basis since 1971 and bred them on a regular basis since 1976. I can proudly state that I have the largest collection of Narcissus hybrids in diversity, quality and quantity, in the United States. I have tried to offer the American gardener and daffodil lovers worldwide the greatest chance of enjoying their favorite flower. Midwestern daffodils will do better in most of the USA and better than those from other climates and countries. While emphasis is on Midwestern Daffodils, I am listing bulbs from Australia, New Zealand and the United Kingdom too.

My daffodil list is sent out by email; and snail mail, to those who require that service. Bulbs are essentially dug to order in late May and June, and then shipped in late September/ October.

This last year has been hard for me as my second year as a widower. End stage diabetes, osteoarthritis and spinal disease have been traumatic and difficult on me. But I've not given up. I am continuing on with the daffodils. Including selling bulbs to our customers and advancing their qualities through continued breeding and selections here.

I'm proud to announce our first Pannill Award to Cinnamon Ring, given this year at the National Show. Also a magnificent bloom of Juergen, 1 Y-Y won the Gold at Nashville last week and Memphis today. Hopefully it too, will join the ranks with Cinnamon Ring. I'm reintroducing Tristan's Memory 2 Y-Y this year. It already has a good show record of Gold Awards will get consideration soon. It's up to you the exhibitors to insure this.

Julie Martin has been my family care giver and still is for me, while providing most of the work on the daffodils and helping provide rehab care on her oldest granddaughter Maci for her post surgery on an aggressive brain tumor Without Julie there would not be an Oakwood Daffodils. This year's list has new Reed introductions and continues include list Larry's Wier's offerings at the end of mine. I suggest you use the Hyperlink to Daffseek to view photos of these flowers on line to help with your order decisions.

Significant advances in many areas of color, form and size are being made at Oakwood. Last year's repeat advances include a beautiful show quality 1 P-R and a deeply colored show quality 8 Y-R using my hybrids exclusively as parents. We now have a perfectly flat smooth 1Y-Y with wide non incurving petals, also more diverse 1 W-R's and 2W-R's.

Join us and savor out beauties. Help the daffodil world and the ADS grow stronger and show more of these attractive flowers. Please take note of the final dates for ordering bulbs as we try to stop digging by the end of June. Sorry no credit cards at this time. Orders are taken in sequence by date received.

Best Wishes,

John Reed, D.O.
Julie Martin

OAKWOOD DAFFODILS

2330 W Bertrand Road, Niles Michigan U.S.A. 49120

TELEPHONE: (269) 684-3327 FAX: 269-684-0738 EMAIL: oakwooddaff@hughes.net

INSTRUCTIONS FOR ORDERING

1. All orders must be received by **July 1st, 2017** to be assured availability. **AFTER THAT DATE**, up until shipping has started, orders will be accepted and filled according to availability. You will receive an acknowledgment of your order as they are processed, either by e-mail or phone call if we have your e-mail address or phone number.
2. Please make checks payable to **OAKWOOD DAFFODILS**. We are sorry, but due to rising costs of credit card processing, we are unable to take any credit cards.
3. Bulbs will be shipped via USPS unless otherwise specified, so please include your COMPLETE shipping address. We are basing our shipping charges on the cost of the USPS medium flat-rate box. This has been our most common box size over the last few years. As usual, we always give gratis bulbs with your orders. For those smaller orders, we will give additional free bulbs to compensate for the additional shipping charge. If you have any concerns or problems with this please let us know. This is being done to simplify the shipping expenses to you. Overseas shipping will be billed at cost, plus the phytosanitary certificate and inspection fees.
4. Bulb shipments will hopefully be finished by the third week of September; sooner, if possible. Please specify if you require a particular shipping date and we will do our best to accommodate.
5. Visitors are welcome, but please make arrangements in advance to avoid disappointment due to variation in blooming or unfavorable weather.

TELEPHONE: (269) 684-3327 FAX: 269-684-0738 EMAIL: oakwooddaff@hughes.net

6. You will receive information about planting and care for your bulbs with your order. Please note that they should be in a location that receives natural rainfall and that does not puddle!
7. The format used in this catalog lists the daffodil's registered name first. This is followed by its classification and color code, then its hybridizer and country of origin. After the description, the pedigree (seed parent x pollen parent) is listed, then its flowering time, and then the price for each bulb.
8. As a professional courtesy to our dear colleague, we include in our listing a special list of bulbs offered by Larry Wier; you can find it at the end of this list. Larry personally oversees the growing, packaging, and posting of his own bulbs. Please send your order and payment, and any questions, directly to Larry via his contact information included on his order form. Thank you.

Hyper-Link instructions

Hover mouse over hi-lighted daffodil name, hold "Ctrl" key down, left click your mouse, you will be directed to Daffseek!!!

NEW INTRODUCTIONS for OAKWOOD DAFFODILS 2017

CLERIC 2 W-YYW (Dr. John Reed, USA)

A very refined "White Collar" measuring division 2 by 2mm. Smooth wide overlapping petals are the backing for a light yellow trumpet shaped corona that has a wide band of white at its edge. Up facing with strong stems. every bloom fit for show. Named for its white collar, like a priests. Was Reed 98-26-20/4A **Name pending**

Irish Affair x Three Oaks Midseason \$20.00

CRIMSON PRINCESS 2W-R (Dr. John Reed, USA)

A very large flower on medium strong stems with good poise and petal overlap. Good for Show or Garden. Was Reed 97-101-2

Magician x Candy Man Midseason \$25.00

DARKER SHADE 3Y-Y (Dr. John Reed, USA)

This is a strong growing tall flower with a strong stem, and outward facing poise. Originally I wanted to name it Honey Dew but the name was taken. It reminded me of the color of that melon not quite yellow or green. The color develops off from white initially. The form is similar to its pod parent Irish Mint. An intriguing and lovely bloom of medium size. Was Reed 98-125-10

Irish Mint x Green Hope Early Late Season \$40.00

Dr. POL 2W-O (Dr. John Reed, USA)

Named to honor a popular veterinarian in central Michigan. The star of a reality T.V show "The Incredible Dr. Pol". I've come to the admire him and enjoy his shows which aired its number 100 episode this year. Originally from Holland, his family and crew provide service to a large rural area. This is the first really strong growing 2W-O here. Its corona is of trumpet character. Very vigorous and free flowering and of show quality. Was Reed 98-32-10 **Name pending**

Orange Tint x Lutana Early Season \$20.00

HAMPTON DELIGHT 1 W-Y (Dr. John Reed, USA)

Admired by an ADS member, it just had to be named for her town. Vigorous smooth, large blooms are shown with great poise and on strong stems that look very impressive. One of the best new introductions yet this year. Stock is still Scarce. Was Reed 97-129-1

Name pending

Three Oaks x Irish Affair Early Midseason \$50.00

IVORY WHITE 1YWW-W (Dr. John Reed, USA)

A most unusually colored trumpet. This large elegant flower opens an off white (Ivory) and as time passes the outer 1/3 of the petals develop a light yellow color. **Name pending**

1993 cross Parentage lost Early Midseason \$30.00

JONNY QUEST 3Y-R (Dr. John Reed, USA)

These early brightly colored blooms have spoken to me for many years. Besides being a vigorous grower it appears to be an intermediate measuring 75mm across this year. The petals lay flat in a perfect plane angled to look at you. They are overlapping and a lemon yellow. The corona is tidy and pleasing. Overall a wonderful small flower 11-12 inches tall, flower Named for a popular T.V. cartoon hero in my child hood. Was Reed 98-14-1 **Name pending**

Cassopolis x Redlands II Early Midseason \$14.00

LAVENDER BELL 1Y-P (Dr. John Reed, USA)

From the cross that gave Pink Climax comes a full trumpet with a rolled, corona rimmed Very vigorous and healthy. The lavender colored trumpet is a perfect topping to the light yellow overlapping perianth. Exceedingly beautiful in my eyes. I love it. Unique in the yellow pink trumpets. Ample stock allows lower price. Was Reed 92-169- ? **Name pending**

Quantasia x Fidelity Midseason \$16.00

LEMON BITONE 1 Y/W-Y (Dr. John Reed, USA)

I fell in love with this flower when I observed in my older 1993 seedling rows on the east side of the spruce trees. Upon opening a light color becomes brilliant yellow as the petals develop a kind of alternation of white and yellow. Eventually the color becomes all yellow. Difficult for me to describe. See my photo on Daffseek. The flowers are large held on strong stems with overlapping petals. The long trumpet looks upward. For show or garden.

1993 Cross Parentage lost Early Midseason \$25.00

MANDARIN ORANGE 2W-O (Dr. John Reed, USA)

A very smooth intermediate. The long corona is a pastel orange and very tubular. Its petals are inherited from Quench that are always broad and smooth. Color is variable with water and heat giving the best blooms. Every bloom fit for a winning show. Was Reed 95-109-1 **Name pending**

Quench x George Gershwin **Early Midseason** **\$14.00**

ORANGE PICOTEE 3W-YO (Dr. John Reed, USA)

The most distinctive flower for the cross that gave me My Sweet Heart. The corona is very small with an edging pleated in shape with alternating colors. Strong stems, smaller flowers excellent poise.

Stock still small, limited amount, was Reed 81-197-4. **Name pending**

Hampsted x ? **Midseason** **\$12.00**

PAPASAN 2W-Y (Dr. John Reed, USA)

Named for the father of all the barn cats at Oakwood. A smooth, large shorter bloom with overlapping petals, but not too wide. The corona is of medium color and well formed, It has strong stems and good poise. Was Reed 2000-16-1

Pike Lake x Irish Affair **Midesason** **\$20.00**

POKAGON 1 YYW-P (Dr. John Reed, USA)

An outstanding , large, impressive bloom held on tall strong stems beckon you. Strong neck. Very smooth flat perianth with broad overlapping segments. Named for the local Potawatomi Indian tribe. A WOW flower. Corona is a pinkish color.

Name pending Was Reed 2001-114-1.

Parentage lost **Midseason** **\$60.00**

ROCKET MAN 6Y-ORR (Dr. John Reed, USA)

To see it is to love it! Named for its appearances of a shooting rocket with up facing blooms, and the song made famous by Elton John. The main stock is at my other farm and will be dug this year. It's a very strong growing healthy flower. Blooms can color up strongly. Was Reed 85-38-5.

Lock Hope x N. cyclamineus **Early Early Season** **\$10.00**

SIMPLICITY PATTERN 2W-P (Dr. John Reed, USA)

One of the better new pure colored 2 W-P's at Oakwood. Very well formed for show with wide smooth petals on medium strong stems. Protection and extra water will give better blooms in most seasons here, Named for a business in Niles, Michigan that made dress patterns. Was Reed 2000-60-1

Diana's Song x Millennium Pink **Midseason** **\$35.00**

SLEEPY HOLLOW 6Y-O (Dr. John Reed, USA)

The third and last selection form this cross, slow growing but healthy. Similar to Peaceful Hollow but distinctive.

Was Reed 84-49-3 **Name pending**

Monal x N. cyclamineus **Early Early Season** **\$20.00**

SPOTLESS 2 W-W (Dr. John Reed, USA)

Very tall strong stems hold well-formed very white show blooms looking up at you. Good petal overlap but not excessive, Wide slower growing but healthy. Being used in my breeding to get longer stems for white trumpets that are on short stems. Named for a daffodil friend Bob Spotts. Was Reed 89-16-2 **Name pending**

Inverpollly x Misty Glen **Late Midseason** **\$12.00**

STANDING TALL 2W-R (Dr. John Reed, USA)

Its name defines it. Most 2W-R flowers suffer with short stems, but this doesn't. From a cross of very red coronas this one stood out. It was saved to use in crosses due to its good attributes of stem, neck, poise and health. Was Reed 97-15-1 **Name pending**

Magician x 87-94-3 **Midseason** **\$18.00**

YELLOW BRICK ROAD 2Y-P (Dr. John Reed, USA)

A bold deeply colored bloom. Very vigorous, healthy, floriferous. Strong stems, with large flowers, petals are a bronzy yellow and the pink corona is more brick/pink colored. As it was bred from Ruby Red the name seemed appropriate. Show, garden and breeding. Was Reed 95-65-1 **Name pending**

Fragrant Rose x Ruby Red **Midseason** **\$24.00**

GENERAL DAFFOIL LISTING 2017

AL LAUREYS 3Y-R (Dr. John Reed, USA)

This is the finest small cupped 3Y-R I have flowered. Of smaller size, the smooth flat perianth segments are positioned in the same plane with excellent poise. Named for Al a friend that helped me so much with the daffodils for 10 years. Al was always there when I needed him. Though of slight build his heart was huge and the best! Was Reed 92-106-1.

Sabine Silk x Burning Bush ? **Late Midseason** **\$ 12.00**

ALL AMERICAN 2W-P (Dr. John Reed, USA)

Similar to Refrain but the cup is longer. Corona is variable in color which is more intensely pink or red in the best of seasons. Strong stems support the flower well. Petals overlap but not massively. They are smooth and in the same plane.

Refrain x Magician **Late Midseason** **\$7.00**

AMERICAN AFFAIR 2W-Y (Dr. John Reed, USA)

When this first flowered I was amazed at its quality. It was the best 2 W-Y I had ever seen. (See the photo in my 2016 ADS Journal ad, plus other later photos in Daff Seek) The corona is dramatically colored a bright yellow and the perianth is very white. Its smoothness is beyond other white yellow blooms I have flowered. This is a great show flower with excellent poise and petal overlap. Stems are really strong. I have flowered smoother show flowers since but without the tremendous impact this one has. Stock is still small with few to go this year. Was Reed 98-66-1

85-81-1 (Cyros x Helsal) x Irish Affair **Midseason** **\$ 55.00**

AMERICAN DOLLAR 3W-W (Dr. John Reed, USA)

A stand-out that is almost perfectly round, small, and very white. I had been calling it Silver Dollar but that name was not available. A definite intermediate with massive, overlapping and smooth perianth segments that incurve. They are on strong stems that show a well formed show flower. A vigorous grower. Was Reed Seedling 98-125-4

[Irish Mint x 85-26-1 (Angel x Misty Glen)] **Late Season** **\$ 20.00**

AMBERGRIS CAYE 1YYG-Y

A large unusually colored trumpet. Stems are strong but just medium tall. It is similar to its seed parent but more intensely colored. It is a show flower and breeder. It is very impressive with beautiful massive petal breadth and overlap.

(Clouded Yellow x Lemon Snow) **Midseason** **\$8.00**

AMERICAN COWBOY 2Y-R (Dr. John Reed, USA)

Peter Ramsay and I made this cross at about the same time. This is probably the best early well-formed and colored show flower that I selected from the cross. Held high with excellent poise and strong stems. The colors are quite intense. An improvement over both its parents. The photo I took can be seen on DaffSeek. Stock is still small. Was seedling 98-1-1.

(Cowboy x Loch Lundie) **Early season** **\$ 30.00**

AMERICAN GOLD 1Y-Y (Dr. John Reed, USA)

A tall, robust, smooth yellow trumpet that shouts out that it is the best. Named for the Gold Medals won by American athletes in the last Olympics. Outstanding poise, overlap, smoothness, color and size make it easy to identify in the field.

Was Reed 93-1-23.

(Celtic Gold x Dream Prince) **Early Season** **\$ 9.00**

AMERICAN HERO 2W-R (Dr. John Reed, USA)

9-11 and since has shown us the patriotism that our fire, police, medics and military give to our country and us on a daily basis. This flower is a bold statement of appreciation for their sacrifices. A truly unique daffodil with tall stems, large flowers with a long corona of dramatic coloring and poise. It is marvelous to view in a well-grown clump. For show and Garden. (I wish it could flower on the Fourth of July, too). Great breeder and very healthy, Simply breath-taking! Was Reed 89-50-1.

Culmination x Ruby Red **Late Midseason** **\$ 5.00**

AMERICAN IDOL 2W-R (Dr. John Reed, USA)

This is the most vigorous selection from the cross of Quasar and Culmination. It is very healthy, free flowering with large flowers that are displayed on tall strong stems. With its wide smooth flat perianth, it can be shown and is marvelous in the garden too, with its bright open red cup. Was Reed 93-10-4.

(Quasar x Culmination) **Early Midseason** **\$ 6.00**

AMERICAN SHOW GIRL 2W-P (Dr. John Reed, USA)

A well-poised, tall, very smooth show flower. Considered my best show pink by many ADS Judges. Very healthy and a strong grower. Was Reed seedling 90-95-1.

(Fragrant Rose x Culmination) **Late Midseason** **\$ 8.00**

ARELEY KINGS 2W-GWW (J. S. B. Lea, ENG, UK)

An excellent tall white show flower with smooth, white wide petals and a long corona.

It is vigorous and dependable here.

(Misty Glen x Croila) Midseason \$ 4.00

ASHTON WOLD 2W-W (John Pearson, ENG,UK)

Many show awards in the UK. Beautiful flowers here, with vigorous growth, and tall strong stems.

(Stoke Charity x Panache) Midseason \$ 6.00

AT LAST 2W-R (Dr. John Reed, USA)

This was the best selection from the crosses made from Fragrant Rose x Culmination. It was also the latest flowering and the slowest to increase here, hence the name. Bright red open cups show well against very white, wide, smooth, overlapping petals and the flowers face upwards. Fertile. A must for late shows. Was Reed 90-95-2.

(Fragrant Rose x Culmination) Late Season \$ 25.00

BACK FLASH 2W-YYO (Dr. John Reed, USA)

An excellent flower for show and garden. Vigorous. It may exhibit an orange rim at times. Was Reed 81-21-1.

(Green Island x Flash Affair) Midseason \$5.00

BARNESGOLD 1Y-Y (B. S. Duncan, N. IRE,UK)

I prefer this of all of Brian's yellow trumpets. It is the parent of my best dark gold trumpet to date. Tall stems support rounded flowers with excellent poise.

(Golden Jewel x Midas Touch) Late Midseason \$ 5.00

BEAUTY REST 2W-P (Dr. John Reed. USA)

Registered in 2009 but has been neglected when preparing my catalog. Big blooms are held high on strong stems with excellent poise. The color of the corona is a very pure pink and the petals very white with good overlap and smoothness. A beautiful flower for show and garden. Reed Seedling 95-40-2

(Brian's Favorite x Lawless) Midseason \$ 6.00

BENTON HARBOR 2Y-W ((Dr. John Reed, USA)

On first flowering this was the best show quality reverse bicolor daffodil I had raised. Alas the stems are short and it has been seed sterile too. The wide over lapping petals are very contrasted compared to the corona. Strong stems support the large flowers well with a straight ahead poise. Was Reed 90-95-1

Fragrant Rose x Culmination Midseason \$ 24.00

BIG MO 1Y-Y (Dr. John Reed, USA)

The finest flower from a prolific small cross. Very smooth, large blooms verging on a subtle shade of orange as the flowers age. It has had good reviews from Ohio and New Zealand, too. Named for my father, M.O. Reed ("Mo") and the greatest United States battleship, The USS Missouri ("MO"). A top-quality show bloom. A slower increaser than its sibling, Dr. David Hough. Reed 83-40-1.

(Gold Bullion x Gold Convention) Midseason \$ 6.00

BIOMETRICS 2 Y-O (Richard & Elise Havens, USA)

Sibling to Flint Arrow and Velocity, but with a non-reflexed perianth registered as division 2. Intermediate show flower.

Jetfire x Gypsy Early Season \$ 7.00

BLAZING SADDLES 11a Y-O (Dr. John Reed, USA)

This was a prolific cross with many imposing flowers. Shown in a collection of seedlings at the 2009 Chicago National Show it was admired by many. Large flowers held on tall strong stems have petals of the highest show quality. The petals are lightly colored reflecting the seed parents breeding to get an orange perianth. Fertile both ways. Healthy grower and an impressive flower. Was Reed 98-146-1

88-99-1 (Colorama x Stylish) x Menehay Midseason \$ 32.00

BRIERGLASS 2W-GWW (John Lea, ENG,UK)

A very white round early show flower. Parent of David Adams from Charles Wheatley.

(Ashmore x Croila) Early Midseason \$ 4.00

BUCHANAN 6W-GWW (Dr. John Reed, USA)

A lovely, early, all-white for show and garden. While it changes colors, it usually can be shown as an all-white. Named for the Michigan town that I first practiced in. Stock is still small, a slow increaser, but healthy. Was Reed 84-101-2

(Broomhill x N. cyclamineus) Early Season \$12.00

BURNING BUSH 3Y-R (Brian S Duncan, Nire,UK)

A truly outstanding daffodil for the garden and show. Intense colors and long stems make it stand out. Proving to be a good parent and an excellent show flower. Makes smaller bulbs. My favorite Brian Duncan daffodil.

[(Rockhill x Bunclody) x (Altruist x Ulster Bank)] **Late Midseason** **\$6.00**

BURR OAK 2W-R (Dr. John Reed, USA)

A number of seedlings were planted adjacent to one of the great trees at Oakwood by my helpers when I had major health issues and was not able to do it myself. When they planted the bulbs they failed to make planting diagrams and used ink labels that faded quickly. This probably was a 1997 seedling, possibly related to Crimson Beauty. Evaluated over the years this selection showed more staying power in bad weather, and overall superior qualities to its stem and flower. Originally called RED Oak by me, but the name was taken. It had smooth overlapping white petals all in the same plane held on tall strong stems above the foliage with glorious red cups. These qualities have been hard to get in 2 W-R daffodils. Stock is still small and it will be in demand for a long time. Was Reed seedling Red Oak. Never released till 2016.

Parentage 1997 cross ? **Midseason** **\$ 30.00**

BUTLER UNIVERSITY 3Y-R (Dr. John Reed, USA)

Considered one of my best 3Y-Rs. It has **tall, strong** stems with excellent large show flowers. They are smooth with heavy substance and excellent poise. Was Reed 92-80-2.

(Kinsman x Suntory) **Midseason** **\$ 7.00**

BUTTER SILK 2Y-Y (Dr. John Reed, USA)

I was taken by this flower's bright yellow color and extreme petal smoothness when I first saw it, hence the name. It has excellent petal overlap and a strong medium length stem. Admired by Larry Weir at his place. It is giving excellent seedlings including my best ever pale 1Y-Y for show. Was seedling 92-22-1.

(Camelot x Dream Prince) **Early Midseason** **\$ 7.00**

CAMEO JOY 2 Y-R (Peter Ramsay, N.I, NZ)

The best of Peter's yellow red daffodils as they grow here. Does have some basal rot at times. An outstanding show flower!

Loch Carron x Dynasty **Midseason** **\$ 12.00**

CANTICLE 9W-GYR (Ballydorn Bulb Farm, N. IRE, UK)

Excellent poet for show and garden. Very smooth and consistent.

(Cantabile x ?) **Late Midseason** **\$ 7.00**

CANDY BAR 2W-YOO (Colin Crotty, SI,NZ)

One of Colin Crotty's most vigorous seedlings growing here. I love it! The stems are strong and support very smooth, out-facing blooms with a bowl-shaped corona.

(Breeding unknown) **Very Late Midseason Here** **\$ 5.00**

CANDY MAN 2W-R (Dr. John Reed, USA)

From the cross that gave American Hero, this daffodil is not formal enough for show but it beckons you with its intense color and tall stems, attracting people like a candy man does. Breeding intense color! Stock is still small. Was Reed 89-50-2.

(Culmination x Ruby Red) **Late Season** **\$ 9.00**

CAPTAIN AMERICA 2W-R (Dr. John Reed, USA)

Appropriately named for a super hero. Tall stems and wide petals are a foil for an amazing large deep red cup. It can be shown. Striking in the garden. Pollen is fertile and occasionally sets seed, too. See DaffSeek photos. Wind protection gives smoother, taller blooms. The red color fades with time, especially in the sun. Was Reed 95-5-1.

(Cordial x Magician) **Midseason** **\$ 24.00**

CARROT JUICE 10-O (Dr. John Reed, USA)

I could not take my eyes off this when it first flowered. While smaller than average, its petals were a uniform shade of light orange. I could see no yellow in the petals with my eyes. This is not a suffusion or a sheen. While this is not a top show flower, it is showable at its best. It is a real color break and its color is being passed on to its seedlings which are of a higher quality, too! Was seedling 96-18-1.

[78-17-3N (Trumpet Call x Orange Way) x 82-108-4 (Zuni x Glenfarclas Early Mid-Season) **\$ 16.00**

CASSOPOLIS 2Y-R (Dr. John Reed, USA)

Possible my best 2Y-R, this is a well-engineered daffodil with an exemplary smooth very flat wide perianth supported by a strong stem and neck. A row of blooms is almost military-like in their bearing. Alas, the deep colored cylinder-like cup burns easily and needs protection for show. It can flush the petals with red at times. Named for a local Michigan town where I have purchased my Ford trucks. Was Reed seedling 82-200-3.

[(Air Marshall x Caracas) x Creagh Dubh] Early Midseason \$ 5.00

CEDAR HILLS 3W-GYY (Mitsch & Havens, USA)

This sets the standard for beauty and quality in the late division threes. A show and garden flower of the highest caliber. Tall stems support the very large flowers with excellent poise, and color contrast.

(Impala x Green Hills) Very Late Season \$ 5.00

CELTIC PRINCE 1Y-Y (Dr. John Reed, USA)

This smaller 1Y-Y, possibly an intermediate has consistently given superb well-formed yellow flowers. White being down for 8 years. It has freely open pollinated every year! Perhaps because the bees like it so well, too? This is from the reciprocal cross of it Millennium Perfection. Was Seedling 87-40-2.

(Dream Prince x Celtic Gold) Early Midseason \$5.00

CHANGING DAY 1Y-R (Dr. John Reed, USA)

An outstanding advance in yellow-red show quality trumpets. When it first flowered I knew it was a "Changing Day" in my breeding of red trumpets. Its perianth form is always superb and the colors are usually excellent. Bred from 2 seedlings chosen for color and form. See photo on DaffSeek. Was seedling 98-105-1.

(Turk x 89-122-5 [Glenfarclas x 81-7-1 (Vulcan x Sutton Court)]) Early Midseason \$ 30.00

CHARBONNEAU 2 W-WOO (Richard & Elise Havens, USA)

Well formed show flower with variable color here. Only perfect conditions gives the stronger coloration. Beautiful.

Iroquois x At Dawning Midseason \$ 8.00

CHICAGO GOLD 1Y-Y (Dr. John Reed, USA)

The original label states Ultra Smooth and Deep Gold. It has consistently done this since its first flowering here. Of the highest quality for exhibition, and also for the garden and breeding. The flowers are smaller than average. I find myself staring at it when I walk by it, even when the flowers are gone! Named in honor of the helpful members of the Chicago Daffodil Society. Stock is still small. Was Reed 93-1-2.

(Celtic Gold x Dream Prince) Early Season \$ 7.00

CHICAGO GOLD COAST 1Y-Y (Dr. John Reed, USA)

Named for the ritzy area of Lakeshore Drive in Chicago with very high priced apartments and homes. This flower is similar to Chicago Gold but slightly deeper in color and the petals are not as wide. Stock has increased enough to finally offer it. An excellent show flower of medium size. Was Reed 93-1-7.,

Early Midseason \$ 8.00

CHICAGO HOPE 1Y-GYY (Dr. John Reed, USA)

The name says it all. Besides using the famous TV show's title, I had hoped that it would win the Rose Ribbon when shown some years ago in Chicago. But that honor went to a sibling of Haunting. It is a well-balanced, medium sized, smooth yellow trumpet capable of giving superb blooms. The smooth overlapping wide petals were inherited from Dream Prince and the vigor imparted from Golden Jewel. Proving to be a very good breeder, too. Was Reed 85-7-2

(Golden Jewel x Dream Prince) Early Midseason \$ 6.00

CHILOQUIN 1Y-W (Grant E. Mitsch, USA)

A vigorous show bloom that does well in the garden. Floriferous, smaller than average.

(Bethany or Limeade open-pollinated) Midseason \$ 4.00

CINNAMON RING 3W-WWO (Dr. John Reed, USA)

A more refined sibling of My Sweetheart with more subtle coloring. Tall strong stems support the smooth show flower well. Protect the flower's rim for show. Received the Pannal Award in 2017. Was Reed 81-197-8.

(Hampstead open-pollinated) Midseason \$ 7.00

COMMODORE PERRY 1W-GPP (Dr. John Reed, USA)

Such a perfect flower had to be near the highest level in the chain-of-command. An American hero with a great American daffodil named for him. While of smaller size it is almost perfect, with a flat smooth overlapping perianth and a light pink evenly expanded trumpet. One of the down under breeders, after seeing the photo (shown in our ADS ad) said that it must be the most perfect 1W-P in the world. Bred from a flower John Lea was using in his pink trumpet program, crossed with the best of Jackson's pinks at the time.

A marriage made in daffodil heaven and a flower either breeder would be proud to claim. Thank you John and David! The Best Intermediate 1 W-P in the world. Was Reed 87-70-1

(Lea 1-19-66 x Obsession) Early Midseason \$ 9.00

COMPUTE 1W-Y (D. Jackson, Jr. TAS, AUS)

One of the largest bicolor trumpets ever seen here. Strong tall stems support a flower with a long deep yellow trumpet. Poise and neck excellent. The perianth is smooth but not quite as good as Bewdy's but it is a very impressive bloom. For show and garden. Fertile both ways.

Helsal x Lenz Early Midseason \$6.00

COPPER MINE 2O-O (Dr. John Reed, USA)

When initially seen I was hard-pressed to code the petal color. Not a yellow but not a true red, either. The flower has become bigger, stronger and brighter as the stock as grown. Still scarce but very desirable for showing and breeding. Tall stems and large flowers guide your eyes to it! Was Reed 97-104-1.

(Cowboy x Burning Bush) Midseason \$ 40.00

COPPERFIELD 2Y-Y (R & E Havens, USA)

When well grown this is an unusual coloration. Buffy yellow petals support an orangish corona. The stem is strong with excellent poise. The petals have a good overlap and are smooth. For show and garden. Great increaser.

(Paricutin x Daydream) Midseason \$ 4.00

COWBOY 2Y-O (David Jackson, Tas AUS)

A Large well colored bloom for show and garden. Excellent breeder, and vigorous!

(Craze x Coope) Midseason \$5.00

CREATION 1W-W (Grant E. Mitsch, USA)

This is the most vigorous non-rotting early show quality white trumpet here. The trumpet is flanged and the flower is fertile.

[(Trousseau x Paradise) x (Seedling A39/1 x Panache)] Early Season \$ 5.00

CRIMSON BEAUTY 2W-R (Dr. John Reed, USA)

Bulbs of this were given to Larry Force to try in his Mississippi climate. Shown the following spring at the ADS National Show by Larry it took first place in the single bloom class for its colors and size. It caught the eye of many exhibitors including David Burdick. David stated the color of the large cup shouted across the room getting his attention. The blooms had overlapping wide, very white smooth petals, all in the same plane with a strong neck and upward poise. A healthy grower. Name was chosen by Larry Force. Was Reed 97-86-1

(Decoy X Culmination) X Magician Late Midseason \$ 20.00

CULVER 3Y-Y (Dr. John Reed, USA)

This the second of the next generation bred from Haunting. This is much smoother and larger than Haunting. Similar but distinctive from Shipshewana that increases more slowly. Named for a local town south of us in Indiana and home of Culver Military Academy. Petals are well rounded with excellent overlap and are silky smooth. Poise and stems are very good and strong. Was Reed Seedling 99-24-3

(Get Away x Haunting) Midseason \$ 24.00

DAVE'S FAVORITE 2Y-0 (Dr. John Reed, USA)

Dave Karnstedt was very fussy about the daffodils that he likes. They needed to point high and be aesthetically beautiful. In other words, approaching perfection! This late 2Y-O is one such flower that Dave seemed to really admire during one of his visits to Oakwood, hence the name. I wish it was more highly colored and have bred it with Burning Bush in hopes of that end. A very high quality show flower. Was Reed 84-142-1

(Safari x Bunclody) Late Midseason \$5.00

DENIS DAILY 2O-R (Dr. John Reed, USA)

Named for our Oakwood guest, a major figure in the Minnesota Daffodil Society until his untimely passing in 2012. Bred to put a color-fastness gene into Sabine Hay. A large, round flower that needs protection for its best color, which is strong and distinct. Potential breeder. Was seedling number 87-9-1.

(Spelter x Sabine Hay) Midseason \$ 9.00

DIAMOND LAKE 1W-Y (Dr. John Reed, USA)

This is the largest show quality 1 W-Y that I have bred. It can be absolutely huge. The tall strong stem supports and shows its broad perianth and trumpet well. Diamond Lake is the largest and most prestigious Lake in our locale (other than Lake Michigan). Was Reed 85-56-1. Limited Stock.

Occasionally x Bravoure Early Midseason \$21.00

DIANA'S SONG 2W-R (Dr. John Reed, USA)

This name was used to honor Princess Diana on her untimely death because England's Rose (Elton John's song honoring her) was not allowed by the International Plant Naming Societies. The smoothest petals of any daffodil in the cross and with beautiful colors. A great show flower, I had inadvertently left out of the catalog the last couple of years. Was Reed 90-5-1

Valinor x Verran Rose Late \$ 12.00

DIK DIK 2Y-R (G.E Mitsch, USA)

Originally classified as a division 6 but changed to division 2 owing to its flat, smooth perianth (No reflex). It is scarce outstanding intermediate daffodil for show.

Seedling x N.cyc. Early Season \$ 8.00

DINGUS DAY 2W-P(R) (Dr. John Reed, USA)

After the original cross made in 1988 flowered, it was repeated with even better results in 1994. This flower has better form and is more consistent in its intense cup color, ranging from deep pink to red-pink. A most imposing flower supported with **tall** stems here. It has been in bloom on Dingus Day (the Monday after Easter Sunday), a Polish holiday celebrated in South Bend, Indiana annually by politicians with beer, Polish sausage, and speeches. Was 94-14-1.

(Dear Me x Culmination) Early Midseason \$11.00

DYNASTY 2Y-R (Spud Brogden, NZ,NI)

One of Spud's best show flowers. Outstanding color and form.

[T42 (Air Marshall x Orator) x Loch Hope] Midseason \$ 5.00

EDIE 2W-P (Dr. John Reed, USA)

Named for our wonderful daffodil helper, Edie Godfrey. She has been there to help, especially with sending out orders. Edie actually was at my bedside to help when I had a pulmonary embolism. This is my first very pure pink cup named from Lavender Hope. The stems are long, supporting pure pink cups against white overlapping petals. It is showable and fertile. This is the flower you want if you desire **REAL PINK COLOR**. See Daffseek photo. Was Reed 97-76-1.

(Lawless x Lavender Hope) Midseason \$ 20.00

END ZONE 2W-R (Dr. John Reed, USA)

Originally called Red Zone per my original description. While not registered it had been used two years ago by Steve Vininsky. As much as I wanted to use it I felt it was not fair to Steve. End Zone is after the Red Zone in football where a touch down is scored. Primarily for garden because the perianth just never makes a smooth enough showing. Colors are intense and the parentage is outstanding. Strong stems, excellent grower and increaser. This is relegated for the garden flower grouping. A long lasting bloom. Was Reed 98-2003-2009

Verran Rose x Magician Midseason \$ 16.00

ENERGIZER 2O-R (Dr. John Reed, USA)

Early in my breeding I was determined to improve the all-orange-red daffodils by breeding and selecting for more color intensity and color "fastness" as they flower here. My early seedlings and those of Brian Duncan's from Altruist would only show a deep perianth color in the best of seasons and none ever showed the intensity that Gypsy or Fiery Flame did in Oregon. Only two selections were kept from this intensely "hot" cross and this one has demonstrated the best combination of form and color resistance here. Hopefully its name says it all. Like the little pink bunny with its beating drums it will energize your spring garden, show table and breeding program. Increase has been slow. Was Reed Seedling 87-6-2

(Sabine Hay x Stylish) Early Midseason \$ 12.00

EGMONT KING 2Y-YOR (SPUD BROGDEN, NEW ZEALAND)

First time listing for Oakwood Daffodils. Very strong, healthy, tall and well colored.

Orator X Loch Hope Mid -Season \$12

FIRE RAISER 2O-O (Carncairn Daffodils, N IRE)

Smooth rounder petals that intensify in color as they age, with complete sun-resistance, characterize this fantastic almost all orange daffodil. Strong short stems hold it erect in all weathers conditions. A wonderful small show flower that really glows in the garden.

Vulcan x Spelter Midseason \$4.00

FIRST STEP 6W-O (Dr. John Reed, USA)

My first 6W-O. Short cupped and color variable but good in recent years. Tends to be yellow at the base of the corona. Was seedling 81-23-1.

(Kilworth x Ballydorn 6W-Y seedling) Late Season \$ 4.00

FLAMING SILK 1W-R (Dr. John Reed, USA)

It seemed logical to cross Pink Silk and Magician to get a 1W-R. This is the only one in two cross attempts that measured division 1. The cross was made both ways, too. Magician gave the best flowers as a seed parent. Its color is not the ultimate red, but it is a very good starting point. Strong, tall stems support large flowers of show quality with an excellent poise. The bulbs are healthy and it is fertile both ways. Now giving 1 W-R seedlings. Was seedling 94-8-1.

(Magician x Pink Silk) Midseason \$ 34.00

FLORIDA ORANGE 2W-O (Dr. John Reed, USA)

The first of the "near-trumpet" 1 W-O crosses to be released. This is a strong vigorous growing, well contrasted 2W-O with strong stems. The blooms are bright with a trumpet shaped corona of strong orange against the very white petals. Petals are overlapping, wide, and all in one plane. The poise is excellent. Stock is still small. Was Reed Seedling 98-48-1

(Ivory Orange x Carrot Top) Early Midseason \$ 30.00

FLUSHER 2O-R (Dr. John Reed, USA)

From my first cross to get an orange-petaled orange trumpet. Two of 120 flowers showed some color in the petals. Alas, the slowest growing one was the best colored one! Of trumpet character and form, it usually has some degree of petal flush. The stems are tall but not as strong as I would like. The corona measures 30 mm and petals 36 mm (Note: most of my daffodils will grow bigger in a protected watered area. All the flowers measured here are grown in the fields). The petals have good overlap and excellent poise. I did not breed with it until I actually flowered a 1O-O. Was Reed 84-79-2.

(Glenfarclas x Creag Dubh) Early Midseason \$8.00

FORT MITCHELL 1W-Y (Dr. John Reed, USA)

Named in honor of the site of the 2002 ADS National Show where it beat many well-known flowers in its single bloom class. Its perfection and smoothness cried out for being exhibited so it was removed from our trade stand to win the single bloom award.

It was cut from the open windswept field of 10 acres. It was beautiful with its chaste smooth flat perianth and its mid-yellow trumpet. Every bloom was identical. Very consistent! Also a vigorous good increaser. Was Reed 81-107-1.

(Cool Contrast x ? –possibly Flash Affair)Early Midseason \$ 5.00

FRANZ JACKSON 2W-O (Dr. John Reed, USA)

Sibling to Tangerine Delight. It is slightly earlier and a couple millimeters short of a trumpet measurement. Excellent carriage and reasonable form. Named for a jazz musician, the father of one of Sandy's friends. Very small stock. Was Reed 98-32-1.

(Orange Tint x Lutana) Early Midseason \$ 32.00

GALIEN 2W-Y (Dr. John Reed, USA)

When this cross flowered I was hard pressed to decide which ones to keep. This is the only one of about 200 seedlings that was retained. Its perianth is very smooth with perfectly flat petals in the same plane. The tall flowers support a deep-yellow cup with strong stems and excellent poise, but petals are not wide. Much admired by Mike Berrigan. Growth was slow initially but seems to be improving now. Just cut for show or admire it in the garden. Named for the small local Michigan town near Dayton Lake. Was Reed 79-21-1.

(Easter Moon x Chapeau) Midseason \$5.00

GOLDEN RICHES 1Y-Y (David Bell, SI,NZ)

Almost a self-orange in favorable seasons. For garden and breeding but can be shown. Nicely ruffled flange on the trumpet. Vigorous and dependable.

[(Red Conquest x Golden Fortune) x Salome] Early Season 3 for \$ 10.00

GREAT JOY 2W-P (Dr. John Reed, USA)

This flower resulted from my first efforts to breed a 1W-R. Even though it is not a full trumpet, the plant is vigorous and smooth with tall stems. Cup color can almost be red in some seasons. Very good. Named for Joy Haeffner, who has been a great help and a joy for Oakwood. Was Reed 96-3-1. Shown in Kirby Fong's winning collection in 2013. See DaffSeek for a well-colored picture.

(Pink Silk x Magician) Early Midseason \$ 12.00

HELEN'S MEMORY 3W-Y (Dr. John Reed, USA)

A beautiful flower with intense colors. It is hard to believe this came from Grace Note! Smooth flat, overlapping perianth segments display the brilliant yellow crinkled cup. Blooms can be quite large and all have strong stems with good necks. Reed 90-69-11.

(Grace Note x Dunley Hall) Late Season \$ 12.00

HERMANN 1Y-Y (Dr. John Reed, USA)

Consistency and perfection have been the hallmarks of this very nice large yellow trumpet. Smooth, well balanced blooms supported by strong stems and well poised, with wide overlapping petals form the perianth. Color is a pleasing yellow, to both the petals and corona. Named in tribute to Joy and Cindy Haeffner's home town, in Missouri. Was Reed 88-34-12

(Phil's Gift x Dream Prince) Early Midseason \$ 14.00

HIGH COMMAND 2Y-Y (Dr. John Reed, USA)

This was the first selection from these two high quality parents. Spectacular show blooms with large yellow petals are held high on strong tall stems giving a commanding poise. The well overlapping petals are all in the same plane and the coronas are of trumpet character but measuring division two. A healthy and very vigorous grower. Shown in several winning collections in 2017. Was Reed 200-165-1

Gold Bond x Wow! Midseason \$ 22.00

HOLY COW! 2W-O (Dr. John Reed, USA)

This flower's cup is hard to believe with its pleats and crinkles. Colors are more orange than yellow in most years. The perianth is well formed with excellent poise and strong straight stems. As it was bred from Great Scott, this exclamation of the Chicago Cubs sports announcer, Harry Cary, seemed an appropriate name. Photo is in DaffSeek. A unique flower for garden and breeding. Was Reed 95-220-3.

(Great Scott x Arwon) Midseason \$ 17.00

ICE CAPADES 1W-W (Dr. John Reed, USA)

In keeping up with the Havens Daffodils catalog that has a garden daffodils section, I felt it was time for me to finally do this too. Over the years some daffodils do so well except not having ultra-perfect show blooms. Combining the best qualities of their parents but so not well formed or smooth enough for show much better than last 2 years. Their blooms are VERY white, floriferous, and healthy with great bulb increase. Quite a sight in the garden. A modern day division one Ice Capades but with a much whiter flower and a trumpet shaped corona. Was Reed 94-129-1

Rhapsody x Chaste Early \$ 6.00

INDIANA UNIVERSITY 2W-R (Dr. John Reed, USA)

Named for my alma mater owing to its brilliant colors of red and white. This is the best-colored and formed selection from this cross. While very capable of being shown, it is not the epitome of white red breeding yet. But its earliness and brilliant red color make it very unique and desirable. Very fertile both ways. Color develops quickly. Was Reed 83-69-1.

Magician x Quasar Midseason \$7.00

INNER GLOW 2W-P (B S Duncan, N IRE)

A beautiful reddish pink from Brian. For show and breeding.

Clouds Rest x Fragrant Rose Late Midseason \$13.00

IRISH AFFAIR 2W-Y (Dr. John Reed, USA)

This is by far the best 2W-Y I have raised and **named and released** at the time. After opening the petals and cup expand and take on a more notable appearance. Heavy substance, bright crisp colors, large size with an excellent stem and neck characterize this flower. Fertile, but seed shy. Named for the romance between my stepdaughter, Michele and her boyfriend, John, when she spent a year in Belfast going to the University of Ulster. (Irish Wedding celebrated their marriage in Northern Ireland). Also, a combining of the names of both daffodils. This is a great flower that needs to be seen to be appreciated. Great in the garden and shows, too. Was Reed 84-34-1.

(Irish Mist x Flash Affair) Midseason \$ 6.00

IRISH MINT 3W-GGW (Dr. John Reed, USA)

A smaller show flower of great smoothness and roundness. Fertile and transmitting that smoothness to its offspring. The amount of green in the eye will be less in dry seasons. Excellent show flower. Was seedling 85-99-1.

(Angel x Achnasheen) Midseason \$ 8.00

JAMORE 2Y-R (Jim O'More, NZ)

One of the most consistent show flowers in its class with "very" smooth overlapping petals. It can be well colored and of Best in Show caliber. See Daffseek. Very Scarce. Only source in the Northern Hemisphere is Oakwood. Bulbs smaller this year.

(Air Marshall x Falstaff) Midseason \$8.00

JASPER MILLS 2Y-ORR (Donna Dietsch, USA)

Donna was nice enough to give me this variety quite a few years ago. It is a strong grower. Very sun-resistant too. For show and garden. Photo in DaffSeek. Small stock.

Flaming Spring x Caracas **Early Midseason** **\$ 10.00**

JAW BREAKER 2W-O (Dr. John Reed USA)

This gigantic flower is held high on strong stems. The color is intense to its expanding corona of trumpet character. The perianth quality is more suited for the garden but can be shown. Petals are overlapping. Poise is good. When first seen by Jason Delaney, his mouth opened so wide, I thought his jaw would drop off, hence the name Jaw Breaker. Fertile, slower grower, and stock is still small. Was Reed Seedling 98-161-1

81-125 (Poets Dream x Preamble) x Ivory Gold] **Midseason** **\$ 32.00**

JOHN EMMETT 2Y-O (Clive Postles, Eng,UK)

This sibling to Cutting Edge has never been listed to my knowledge. It is bigger, more vigorous and a far superior flower. alas, just short of a trumpet. See photos on Daffseek.org. It has suffered with some rot here but far less than its parent and sibling. Recommend for the highest level of showing and breeding. Excellent breeder, Only a few to go. Was Postles Seedling 1-27-89.

(Lea 1-14-76 x Hampton Court) **Midseason** **\$38.00**

JOLLY ROGER 2W-Y (Murray Evans, USA)

ADS Classic. Very smooth, excellent older show flower. Scarce

Wahkeena x (Bread and Cheese x Unknown)Midseason **\$ 5.00**

JUERGEN 1Y-Y (Dr. John Reed, USA)

More praises have been given to this yellow trumpet than any other while growing in our field. Also from New Zealand. Very consistent with a smooth over lapping perianth and a well-balanced trumpet. Strong stems with excellent poise. The Daffseek photo shows it growing in the field and is very representative of its form. Named to honor Juergen Steininger, a nurseryman who loves daffodils and is promoting them for the American market. It received two Best in Show this year. Was Reed seedling 96-63-1.

(83-40-4 x 84-7-4 [(Gold Bullion x Gold Convention) x (Golden Jewel x Dream Prince)]) **Midseason** **\$ 30.00**

KILLEARNAN 3W-GYR (J S B Lea,Eng,UK)

This was introduced as a poet and the n changed to division 3. A perfect show flower with Best in Show awards.

Andrew Marvel x Greenfinch **Late Midseason** **\$5.00**

KIMMERIDGE 3W-YYO (D & J Blanchard, Eng,UK)

Many times a winning show flower, including Best in Show. Needs shading for better color.

(Port Rush x Pretty Polly) **Midseason** **\$ 3.00**

KOOP 1Y-O (Dr. John Reed, USA)

This small orange trumpet had a flag next to it after the 2009 ADS National Show bus trip visited us after the 2009 Show. The flag said Koop because Dr. Koopowitz liked it and put his abbreviated name to it. The name stayed with it and was registered "Koop" in his honor. The flower is apparently an intermediate and vigorous. Quite smooth with overlapping petals. May be a useful breeder? Stock is small. Was Reed 97-47-1

Trumpet Call x Bailey **Midseason** **\$ 14.00**

LADY DIANA 2W-W (Broadfield Daffodils,Tas, AUS)

An Early Outstanding top shelf show flower. Easily capable of being a best in show bloom. Don's Best! Excellent breeder.

(Lady Slim x Gwyn) **Early Midseason** **\$ 5.00**

LADY KILPA 2W-Y (Broadfield Daffodils,Tas, AUS)

Large strong growing show flower. Scarce.

(Kilpa x Lady Slim) **Midseason** **\$ 6.00**

LAKE SUPERIOR 1 W-Y (Dr. John Reed, USA)

This is the most consistent show quality flower 1 W-Y that I have named so far. Shown twice, it has been a Rose Ribbon winner and a Best IN Show. Lake Superior is the largest of the Great Lakes and this daffodil is so named! Alas, it has been a slow increaser but always smooth. Great colors, substance, smoothness, poise. See Tom Stettner's photo on DaffSeek. Fertile both ways. Price is high, reflecting its scarceness and desirability. Was Reed 98-26-16.

(Irish Mist x Flash Affair) x Three Oaks **Early Midseason** **\$50.00**

LIVING COLOUR 2W-GRR (Colin Crotty, SI, NZ)

Deeply colored but has short stems. Has proved itself as a valuable breeder here.

[(Rainbow x Cherry Rim) x Eclat] Midseason \$ 4.00

LOUISE RANDALL 2W-W (Dr. John Reed, USA)

This is a beautiful daffodil named for a very special lady who loved daffodils. For many years Louise and her son, Bob, would help me plant daffodils especially when I got behind. She even helped in the snowy November weather when she was in her 80s. This is the **most consistent early midseason white for show** that I have named so far. It is also great in the garden. By combining the best attributes of its parents, it never lets you down. Neither did Louise! Flower grows and develops on maturity don't pick when immature. Was Reed 89-9-1.

(Misty Glen x Rhapsody) Early Midseason \$ 6.00

LOVER BOY 3W-Y 3W-Y (Dr. John Reed, USA)

A Really beautifully colored and shaped exhibition bloom. The cup is very round and a bright yellow. Stems are strong and support smooth blooms. They have nicely overlapping petals. Named to honor my deceased cocker spaniel. Healthy grower. Was seedling 2001-55-1.

Green Hills x 91-85-1 (Yum-Yum x Dunley Hall) Late Season \$ 24.00

LYDICK 2W-R (Dr. John Reed, USA)

Offered for breeding and garden use. The original stock clumped up very fast and bulbs were dug to fatten them up again. It has been a good breeder for deep pink/red flowers. A great improvement over Spaceship. Very healthy, excellent stem, neck and wide petals. Named for a small local Indiana town.

(Spaceship x Culmination) Early Midseason \$ 5.00

MACDALLA 1W-Y (David Jackson, TAS, AUS)

A very smooth show winner from Tasmania. Its corona is more tubular and a pale yellow in color as it has grown here. It was a deeper color when seen down under. Stock is still small. An excellent show flower and good grower. See Daffseek photo.

(Breeding unknown) Early Season \$ 12.00

MACILYNN 3W-YYR (Dr. John Reed, USA)

It seemed logical to cross the vigorous and colorful My Sweetheart with LaPaloma. This is possibly the best all-around show flower of the seven selections kept. It is named for Oakwood's own sweetheart Christy Wagoner's little baby. This is a strong grower and increaser! Was Reed 95-34-2.

(La Paloma x My Sweetheart) Midseason \$ 16.00

MAGIC CHARM 2W-R (Mitsch and Havens, USA)

An impressive well colored flower in this climate. The corona is a deep red set against a pure white well formed perianth. Corona is slightly longer than Catalyst. Excellent stem and neck. Seed sterile here.

(Decoy x Magician) Late/Midseason \$ 8.00

MAKO 1W-W(Dr. John Reed, USA)

This is my first introduction of a white trumpet. Tall, imposing and vigorous with overlapping petals. I wanted to name it the "Great White" but it was already taken many years ago. Moderate omcreaser. For show and garden. Was Reed 84-128-7.

Pitchroy x Panache Midseason \$16.00

MARIEMONT 1Y-O (Dr. John Reed, USA)

This beautiful flower had been admired ever since it first flowered. It has been a healthy strong grower with smooth wide petals backing a very nice orange trumpet. A bulb sent to Jason Delaney was praised highly. It was the earliest 1Y-O to flower in 2014, and the blooms were long lasting. Location and seasonal variables can alter its quality. Named for a southern Ohio community interested in Oakwood's daffodils. Was Reed seedling 95-100-1.

[81-30-1 (Q20 x Sutton Court) x Uncle Duncan] Early Season \$ 6.00 or 3/\$12.00

MEMORIAL DAY 2W-P (Dr. John Reed, USA)

Named in honor of the Memorial Day daffodil dig that has become a tradition here, sharing our excess bulbs with the daffodil clubs who come to help us dig the fields. A late, smooth, large pink with excellent vigor increase and show quality. Blooms held on strong stems. Was Reed 90-75-3. Click on Daffseek.org to see the intensely violet-shaded cup.

(Everpink x Kerstin) Late Midseason \$ 9.00

MEMORIAL GOLD 1Y-Y (Dr. John Reed, USA)

From a cross of intense quality comes a flower that can be shown without any grooming. Named for the hospital I was born in and have worked for. A deep yellow shade with excellent poise, stem and neck, overlapping smoothness, etc.!

(Gold Convention x Goldfinger) Early Midseason \$ 9.00

MIGHTY MITE 1YYG-Y (Dr. John Reed, USA)

Many hundreds of seedlings were raised from this cross giving standard sized blooms and smaller intermediate ones. This has been the best show intermediate yellow trumpet I have raised, albeit increase has been slow. The plants have been healthy and fertile both ways. See the photo on DaffSeek. Limited stock. Now getting many best intermediate show. Was Reed 2010 selection #5.

(Celtic Gold x Dream Prince) Early Midseason \$ 26.00

MILLENNIUM ORANGE 1W-O (Dr. John Reed, USA)

This is the finest white-orange trumper that I have named to date. The corona shades from deep to light orange down the corona. The stem, neck, poise overlap are outstanding. Much admired by Peter Ramsay when he visited here. Very fertile. Photo is in Daffseek. Was Seeding 96-125-2.

81-125-2 (Preamble x Poets Dream) x Lutana Early Midseason \$60.00

MILLENNIUM PERFECTION 1Y-Y (Dr. John Reed, USA)

Of all the yellow trumpets that I have flowered, this has consistently been the finest show flower from year to year as it grows in the field. The cross for it was made 5 times and this was from the last attempt. A bulb given to Bob Spotts took Best in Show at the 2010 National ADS Show. The petals are very smooth and their width is extraordinary. It is giving these characteristics to its offspring. Its picture can be seen on DaffSeek. Was Reed seedling 95-1-1.

(Celtic Gold x Dream Prince) Midseason \$ 36.00

MILLENNIUM RED 2W-R (Dr. John Reed, USA)

When it first flowered this was the most pure red cup I had developed. Not a dark red like Catalyst but a pure vibrant red. It in turn is breeding this color. It has excellent petals that are very white with good overlap. Strong stems with up facing poise display the blooms well. Was Reed seedling 91-6-1. Scarce.

(Evans W 2/5 x Ruby Red) Midseason \$ 22.00

MOON RAKER 8Y-YYO (JN Hancock and Co, Australia)

Never offered in the USA. This is the best show worthy poetaz available. Excellent stem, poise and overlapping petals. Usually 2 flowers per stem. Great flower.

Corofin x ? Late \$14.00

MOTOWN 11aY-R (Dr. John Reed, USA)

While registered in 2009, it had to be renamed as hopeful Lickity Split was not accepted. I'm not sure if it was offered in 2009 but at least not under this name. So I'm re-offering it now. Due to oversight it has not been listed since. This cross was made to get an 11O-R and is very deeply colored. In a better climate it probably will be an orange-petaled flower. The corona is very dark and the plant is vigorous. While slightly coarse, it can be shown especially with extra watering and wind protection is a sight to see! Was Reed Seedling 98-54-3

(Menehay x Rory's Glen) Midseason \$ 14.00

MUSIC 2W-PPY (Grant Mitsch, USA)

This beautiful sibling to Culmination usually has a slight amber-pink cast to its petals.

Romance x Cool Flame Late Midseason \$4.00

NEW KID 3W-YYR (Dr. John Reed, USA)

The third selection from this very good cross to be named. Again the name given by Mike Berrigan who seems to really like these siblings. Distinctive from the others but well colored and strong grower. Was Reed Seedling 95-34-4.

(La Paloma x My Sweetheart) Midseason \$ 22.00

NOTEWORTHY 3W-YYO (William Pannill, USA)

Tall, vigorous for show and garden. Scarce. Very good. Impressive looking with larger blooms.

(Lough Areema x Rose Caprice) x Jewel Son Late Season \$ 5.00

NOTRE DAME 2W-GYP (B.S. Duncan, NI, UK)

Many awards for this excellent show flower with very tall stems and very smooth perianth segments. Corona is tubular.

(Raspberry Ring x Fragrant Rose) Late Season \$ 5.00

OAKWOOD GLEN 2O-O (Dr. John Reed, USA)

This is the first of the richly-colored, concolorous "almost-trumpet" orange trumpets to be released. Of trumpet character and a very vigorous grower, this fertile flower is being extensively used in 1O-O crosses. The color is more copper than orange and is uniform rather than just a flush. Medium-sized with excellent stems and poise. Petals overlap well and are smooth. It's color at sunset is exquisite, its petals distinctly copper compared to neighboring yellows, golds, and oranges. Was Reed Seedling 2002-86-1

(Rory's Glen x Quantum Leap) Midseason \$ 20.00

OAKWOOD SPRITE 1 Y-Y (Helen Link/Dr. John Reed, USA)

It has an informal perianth but had a strong stem and neck And it is very floriferous too. The earliest daffodil to bloom here. A miniature daffodil for sure. Helen also registered a miniature form the this cross. Was Reed Seedling 77-43-1

Tiny Tot x Divine **Very Early Season** **\$ 5.00**

OAKWOOD STIMULUS (formerly STIMULUS) 2YO-R (Dr. John Reed, USA)

Just short of a trumpet and intensely colored. The perianth can flush orangish-red in a favorable season. Not of the highest show caliber, but it stands out (shouts at you!) in the garden due to its coloration. Offered for breeding and garden use. As President Obama has offered us a stimulus to get our economy going, I offer you a stimulus for further breeding toward the ultimate 1O-R! Was Reed 89-122-2.

[Glenfarclas x 81-7-1 (Vulcan x Sutton Court)] **Early Midseason** **\$ 5.00**

OAKWOOD TYKE 1 W-W (Dr. John Reed, USA)

Vigorous for garden and show. Indescribable, The best and healthy.

Bagatelle x Sir Echo **Early Midseason** **\$ 5.00**

OH CINDY! 2Y-P (Dr. John Reed, USA)

A.D.S member Cindy Haeffner was smitten by this vigorous intermediate bloom while still in the unselected seedling beds. Initially verging on miniature size the clump opened with very little color and the cup was somewhat "squatty" in form. By the afternoon the colors had changed to a very strong pink and had an improved corona. The well formed petals were a pleasing light yellow. It had copious pollen and was fertile. A true intermediate with strong short stems but held high above the leaves. The blooms look at you. An amazing flower and very healthy so far. Was Reed seedling 2000-36-1.

Laporte x 2 Y-P seedling **Midseason** **\$ 20.00**

OREGON TRAIL 1Y-R (William F. Tribe, USA)

A well colored but smaller red trumpet for show and garden. I have a very good strong-growing stock. Multiplies very well. Shown many times in collections.

(Arctic Gold x Brer Fox) x open-pollinated] x Javelin) **Early Season** **\$ 6.00**

PARICUTIN 2Y-R (G E Mitsch, USA)

Very strongly colored with a wide open cup on strong stems with good poise. Excellent substance and petal overlap. Great breeder ADS Classic.

Klingo x Ardour **Midseason** **\$8.00**

PEACEFUL HOLLOW 6Y-O (Dr. John Reed, USA)

A sibling to Wayne's World. It has drawn praise from several ADS judges. Smooth and well-formed but slightly larger than Wayne's World. Also slow growing! Well swept-back petals sport an orange, medium length corona. Stock is small. Was Reed 84-49-2.

(Monal x N. cyclamineus) **Early Season** **\$ 12.00**

PEGGY MACNEALE 2W-W (Dr. John Reed, USA)

Peggy was an outstanding and long-time member of the ADS that she loved. Her enthusiasm brought many new daffodil lovers to join the ADS and the SWODS group. Her trips to Oakwood were only at bulb digging time because of her ADS duties. She liked to point out particular bird calls to us novices while she hiked the wooded hills of Oakwood. Oakwood loved Peggy. This is a **superb smooth show flower**. Very white bloom with trumpet shaped corona on strong stems with excellent poise. My Best Show White Daffodils. Was 84-122-3.

(Inverpolly x Kindee) **Midseason** **\$ 8.00**

PETER 3W-P (Dr. John Reed, USA)

Well formed overlapping smooth white petals, rounded all in the same plane. Petals are slightly incurved. Strong stems with excellent poise. The corona is round and the color is a light reddish pink. Fertile both ways. Named to honor Peter Ramsay of New Zealand. Peter has been a long time daffodil friend. The best formed daffodil from its cross and used extensively in breeding.

Was Reed 2000-21-1

Kerstin x Clouds Rest **Midseason** **\$ 25.00**

PIERCE- ARROW 1Y-O (Dr. John Reed, USA)

Show quality 1Y-Os are still scarce, especially those that flower late. This vigorous daffodil blooms in late midseason here. It is of excellent size and height. And is of show quality with good poise, overlapping petals and non-fading color. Named for the classic American cars made in Albany, New York. A twelve-cylinder version of the Pierce Arrow set a world land speed record in the early 1930s driven on the Bonneville Salt Flats. Was Reed Seedling 89-83-17.

(Trumpet Call x Glenfarclas) **Late Midseason** **\$ 5.00**

PICTURE PERFECT 2Y-R (Dr. John Reed, USA)

Large imposing flowers are held high on strong stems. Excellent color. Needs to be wind protected and watered for the best blooms. My best all around Y-R daffodil.

(Safari x Bunclody) Late Season \$ 5.00

PIKE LAKE 2W-Y (Dr. John Reed, USA)

The newest of the Lake Series to be named. Admired by several ADS judges and myself. Its strong stem, neck, poise and the late midseason flowering make this flat perianth beauty a good show flower. It was the only W-Y in a cross that gave many lovely W-Ws. Named for a small fishing lake just east of Dayton Lake. This is very vigorous and giving nice seedlings. Was Reed 88-82-1.

(Misty Glen x Immaculate) Late Midseason \$ 5.00

PINK CLIMAX 2Y-P (Dr. John Reed, USA)

This was the name that came to me when I first saw it in bloom. The flower colors are pastel and very pure. Almost a lavender pink in the trumpet shaped corona. Definitely not garish. I can only hope that David Bell has been looking down from Daffodil Heaven to see it in bloom. **A must have!** Vigorous and floriferous. Was Reed Seedling 92-169-1. See DaffSeek photo.

(Quantasia x Fidelity) Midseason \$ 8.00

PINK FLUSH 2P-P (Dr. John Reed, USA)

Simply the most consistent show quality pink flushed perianth I have raised or seen here. Every year it has shown a warm pink glow in its **smooth flat, overlapping perianth**. It is also giving that color and quality to its offspring. Fertile both ways. Was Reed 90-100-2.

(Music x Culmination) Late Midseason \$ 7.00

PINKIE LEE 2P-P (Dr. John Reed, USA)

A good addition to the scare class 2 P-P. Show quality, vigorous grower. Named for a child hood T.V actor from the early 1950's. Petals are well overlapping with a strong red- pinkish color, all held in the same plane on strong stems. Was Reed seedling 97-66-1.

86-31-1 (Decoy x Culmination) x Magician Midseason \$ 26.00

PINK PANDA 2P-P (Dr. John Reed, USA)

The second daffodil in the garden series. This can be shown but is so late in blooming that it is not useful for most people to show. The pink shading is also very dark. Very healthy and floriferous. It is a good breeder too, giving a very flashy 2 P-P this year. All the usual good attributes. Try it. You will probably like it. Was Reed 98-214-2009-1

Mowana x Pink Flush Very Late \$ 20.00

PIN-UP GIRL (formerly COVER GIRL) 2W-P (Dr. John Reed, USA)

A combination of a superb show quality perianth with well overlapping smooth segments. The corona is a lovely shade of pink. Very consistent and vigorous grower here. Was Reed Seedling 90-75-1.

Everpink x Kerstin) Midseason \$ 5.00

PLEASANT VALLEY 3Y-R (Colin Crotty, SI, NZ)

Perhaps the best show flower from this cross. Now well acclimatized. Many best in show Awards including the South Island, New Zealand National Show. Robust grower but limited stock. Beautiful. Only offered in the Northern Hemisphere here.

Achduart x Trudie May Midseason \$ 20.00

POCKET CHANGE 1Y-Y (Dr. John Reed, USA)

I have been reluctant to offer this because it has grown much larger from when it was selected. A better name might be Big Bucks. Tall, strong and smooth. Offered at a lower price to encourage trying it. Was Reed Seedling 90-35-1.

(Celtic Gold x Dream Prince) Midseason \$ 8.00

POET'S WAY 9 W-GYR (Tom Bloomer, N Ire, UK)

Tom's best poet and an excellent flower for show and garden.

Smyrna x Lough Areema Late season \$ 4.00

POPS LEGACY 2Y-R (Dr. W.A. Bender, USA)

I consider this the finest available American bred W-Y trumpet grown here until Three Oaks was released.

P.O.P. Seed Early Midseason \$5.00

PORT NOO 3 W-Y (Carcairn Daffodils, N Ireland, UK)

An outstanding flower and near tops for show, garden vigor and color. Strong stems support a well poised blooms. Easily a show winner either as a single bloom 1 vase of 3 or best in show.

Golden Aura x Aircastle Midseason \$10.00

QUANTUM LEAP 10-R (Dr. John Reed, USA)

When this first flowered I was amazed to see its Altruist-like coppery petals. While I have never seen that copper color again the petals do show a reasonable light orange flushing and the big trumpet has intensified in color. Jason Delany has insisted that I should code it as red, not orange. This change has been made. It has tall stems that show some arching. It is fertile both ways and has been retained for breeding. It has given orange trumpet seedlings with Flusher. Was Seedling 94-15-2.

(American Revolution x Corbiere) Early Midseason \$7.00

RAMALLAH 1Y-Y (Dr. John Reed, USA)

Every bloom is fit to show. The blooms show just above the leaf tips with lasting power on the stem. Chosen to honor a fellow physician, Dr. Salous from Palestine. This is the name of his home town. A well balanced, pleasant show bloom. See photo on Daffnet from the Chicago 2013 show. Was Reed 93-1-23.

(Celtic Gold x Dream Prince) Early Midseason \$ 10.00

RED ENVY 2W-R (Dr. John Reed, USA)

Because of Culmination's tall stem I used it almost exclusively in my early 2W-R crosses. After seeing Catalyst, I started using Magician more. Red Envy is the best from this cross for me. Much like Catalyst as the seed parent, it too is seed sterile here. The flower is a little brighter red. The flower usually lasts 5-6 days longer than Catalyst and is more rot resistant so far! It can be shown and has a strong, short neck with bright color that is non-fading. Healthy. 3 blooms at 2017 National Show were outstanding and were grown in Mississippi. Was Seedling 95-14-1.

(Decoy x Magician) Early Midseason \$8.00

RED WINE 3W-R (Dr. John Reed USA)

Color is an intense red at the outer rim very decreasing to the center of the bloom. White petals overlap and are in same plane. Stems are strong with excellent poise and short necks. Fertile both ways. Nothing else like. Stock is scarce just yet. Amazing. Was Reed 2002-143-1

Inner Glow x Harold's Cross Late-Mid Season \$ 30.00

RIVER CROSSING 3W-Y (Dr. John Reed, USA)

From a cross to develop a 3W-P comes a vigorous high quality 3W-Y. Greatly admired by Cynthia Haeffner. Stock is ample and every bloom can be shown. Parentage is similar to the pollen parent of Brooke Ager. Named for a new foot bridge at my alma mater that crosses the St. Joseph River between the school I.U.S.B and its first ever student housing. Was Reed 81-123-1.

(Coral Light x My Word) Late Midseason \$ 6.00

RED PASSION 2W-R (Dr. John Reed, USA)

These flowers stand tall on strong stems with excellent poise. The overlapping petals give a round appearance and the bowl shaped cup is a nice shade of bright red. This is my best show quality early red-pink to date. On seeing it one can understand how it got its name! Was Reed 98-179-1. Listed again as it has increased well.

[88-93-5 (Evan's W2 x Magician) x Celestial Flame] Midseason \$18.00

REQUIEM 3Y-GYO (Mrs. Goethe Link, USA)

I consider this the finest creation of Helens never offered before. The petals take time to color up the light yellow here. Outstanding and beautiful. Limited Stock.

Tynemouth x Altruist Late Midseason \$14.00

ROCKNE 2Y-Y (Dr. John Reed, USA)

Knut Rockne was the most outstanding football coach that the University of Notre Dame ever had. I grew up in the shadow of the school's Golden Dome. I have had the pleasure to work with one of his nieces, Josephine Copeland and this flower has been named to honor her and her family. A very imposing late all yellow of the highest show quality. The massive, overlapping major petals make this a division 2 instead of a 1. One of the finest late midseason all-yellow daffodils for show and garden. Was Reed 85-7-3.

(Golden Jewel x Dream Prince) Late Midseason \$ 8.00

ROSE LAKE 2W-P (Grant E. Mitsch, USA)

For show and garden. Vigorous.

[(Easter Moon x Cool Flame) x Pink Silk Midseason \$ 4.00

ROSEVINE 3Y-WPP (John Pearson, ENG,UK)

Best available show quality 3Y-P. Good breeder and healthy.

(Eastermoon x Seedling) Late Midseason \$ 6.00

ROYAL MARINE 2W-YOO (J. Lea, ENG,UK)

Outstanding for show and garden. Tall stems. Vigorous.

(Colly Gate x Ibberton) Midseason \$ 4.00

RUBY RED 2W-R (Dr. John Reed, USA)

The name says it all. Performance is variable but fantastic color at times and an amazing breeder. Inspired by Dorothy's slippers in the Wizard of Oz and the intense color that is easily visible at a distance, a brilliant ruby-red. Vigorous, rot resistant and somewhat rough, it is passing this color on to its seedlings. Some of these with Culmination have a warm pink perianth. Good stock due to retention for breeding, giving 2 Y-Ps, too. Far better stem and poise than Spaceship. This is the parent of Millennium Red. Was Reed seedling 81-176-1.

(Spaceship x Duncan seedling) Late Midseason \$ 4.00

RURAL KING 1Y-P (Dr. John Reed, USA)

Named for the farm store that I use all the time for daffodil related supplies. Not of the highest quality for smoothness like Coloma but large, vigorous and very intensely colored. A reddish pink trumpet. Very floriferous and a great increaser too. Was Reed 98-74-2

**84-126-1 (Lorikeet x Memento) x 87-84-1 (Nanushka x Lorikeet)
Midseason \$ 18.00**

RUSTY DOODLE 2O-O (Dr. John Reed, USA)

From a very prolific cross, the second to be named out of 900 seedlings. Not an intense orange to the perianth but a dull orange. The flower is very well formed and round with well overlapping petals. The corona is very circular and solid orange in color. Petals are in the same plane with strong stems displaying the blooms well. An excellent show flower. Named for my four year old Golden Doodle dog Rusty. Was Reed 98-1-2

Cowboy x Loch Lundie Early Midseason \$ 28.00

SABINE HAY 3O-O (D. Milne, ENG,UK)

The most fantastically self-colored exhibition flower available. The tall stems support a well-rounded perianth of orange and a deeper colored cup. Protect from the sun!

(Seedling x Seedling) Late Midseason \$ 4.00 or 3/\$ 10.00

SAMSARA 3Y-YRR (Clive Postles, ENG,UK)

A very smooth but usually paler show flower here. It breeds very smooth show blooms.

(Achduart x Stanway) Late Midseason \$ 5.00

SANDYCOVE 2Y-GWP (B.S. Duncan, N. IRE,UK)

A vigorous show flower and breeder. The perianth opens white and quickly transitions to yellow. Excellent breeder. Almost a division 3.

(Pismo Beach x High Society) Late Season \$ 5.00

SHIMMER 6Y-O (Grant E. Mitsch, USA)

This is the best early 6 Y-O. It has bloomed every year I've grown it. Very free flowering even when down 25 years. Fertile. Best in the garden.

(Market Merry x Armada) x N. Cyclamineus Early Early Season \$10.00

SHIPSHEWANA 3Y-Y (Dr. John Reed, USA)

One of the first generation progeny from Haunting to be named. It is a very strong growing a great increaser and quality show flower. Very smooth. Every bloom is fit to show and also grows well in the garden. Named for a local Amish community in Indiana. Was Reed Seedling 99-24-2.

(Getaway x Haunting) Late Midseason \$ 22.00

SIMPLY STUNNING 1Y-Y (Dr. John Reed, USA)

Combining the size of Arkle and the smoothness of Dream Prince, this flower took Spud Brogden's eye when it was at the National Show. Its stem is strong with a good upward presentation. It is a slow increaser but healthy and a good parent. It was the only selection kept of 2 years of crosses. Finally released but the stock is still small. Was Reed seedling 90-12-1.

(Arkle x Dream Prince) Midseason \$ 12.00

SKOOKUM 3Y-Y (Murray Evans, USA)

A light yellow small cup, excellent grower stem, poise flower. Breeds 3 Y-Ys.

Green Island x Actaea Late Season \$8.00

SMOOTH TRUMPET 1W-Y (Charles, Wheatly, USA)

Its name says it all. The wide, white, overlapping petals are very smooth. The light-yellow trumpet is long and elegantly shaped. Poise, stem and neck are excellent. It is still very rare. I have been building up my stock for over 10 years. A show flower of the highest caliber. Small stock.

(Breeding unknown) Midseason \$ 10.00

SONGKET 2W-GWP (Brian Duncan, N Ireland, UK)

Rarely offered this is an outstanding smaller intermediate formed rimmed panel. The center changes from yellow to white. I can emphasize how beautiful it looks. A strong grower. Ever bloom can be showed.

Pismo Beach x High Society **Midseason** **\$10.00**

SPRING BOUQUET 2 Y-P (R & Havens, USA)

Almost a full trumpet with a ruffled corona. Strong stems support large flowers with well over lapping lemon yellow perianth segments. Strong neck, color variable but can be deep peach pink at times. Vigorous. Was seedling W H 27/7

Lorikeet x Magician **Midseason** **\$ 9.00**

STRAWBERRY SHORTCAKE 3W-P (Dr. John Reed, USA)

My first division 3W-P of good quality, and it breeds well. Color varies from reddish to pale pink. For show and garden. Fertile. Was 84-171-1.

(Pismo Beach x Everpink) **Late Midseason** **\$ 8.00**

STYLISH 2O-O (P&E Phillips, NI, Zealand)

On first flowering in 1979 I fell in love with its copper orange petals and orange cup. Glorious on a hot and dry day. Pictures do not capture its true color intensity. Show flower and garden too.

Parentage unknown **Midseason** **\$8.00**

SUDDEN IMPACT 3W-Y (Dr. John Reed, USA)

This is the best most dramatic show flower from division three that I have raised. Mistakenly listed as a division two when registered. When seen by Peter Ramsay at my farm it made such a "Sudden Impact" on him that he threw one of my flag makers at it declaring that he wanted that one! It was in the single bulb stage when he did this in 2009. There is now enough to list it. The very large flowers are of imposing proportions with wide spread overlapping petals and excellent smoothness. The corona is a true bowl shape cup rather than a flaring type seen on most division three daffodils. The colors are dramatically bright. Fertile both ways. Only a few to go this year. Was Reed 2003-100-1

97-32-3 (Dunley Hall x Three Oaks) x 95-26-1 (Dunley Hall x Irish Affair) **Late Midseason** **\$ 65.00**

SUPER HERO 2W-R (Dr. John Reed, USA)

A proven parent and good garden flower with strong tall stems that consistently hold well-colored large blooms. In 2006 its offspring gave me the largest and best formed strong red colored division 2 seedling of trumpet character that I have seen. This seedling is truly a Super Hero. Was Reed 92-170-1.

(Ken's Favorite x Magician) **Late Midseason** **\$ 5.00**

TABOR HILL 2W-P(O) (Dr. John Reed, USA)

Displaying **outstanding show** form and it has a unique orangish-pink cup color. This attractive corona has a slightly rolled lip. It has been very healthy and is increasing well. Fertile both ways. Other pinks with orange hues are coming on here and are being bred with it, including a full trumpet from red-pink breeding. In the tradition of its seed parent, it is named for a local southwestern Michigan winery. Rated highly by several ADS judges. A must for Show. See the photo in DaffSeek.

(Cabernet x Verran Rose) **Midseason** **\$ 12.00**

TANAGER LANE 8W-O (Dr. John Reed, USA)

Until this selection flowered I had come to believe collecting o.p. Matador seed was not useful. Through the years this selection has developed into an improvement over Matador. The lighter petals qualify it as a definite 8W-O and the flowers are nicely formed and "fertile." A very large bulb can have up to 8 florets on it. Has produced outstanding deeply colored 8Y-R's. Dr. Frank Gaylon was interested enough to inquire about it and was given a bulb before his stroke and death. Named in honor for his home address. Stock small. Was Reed 84-212-1.

(Matador open-pollinated) **Midseason** **\$13.00**

TANGERINE DELIGHT 1W-O (Dr. John Reed, USA)

First flowering in 2004, it was an eagerly awaited outcome from my 25 year effort to breed strong vigorous show quality white orange trumpets in my climate. This cross gave many nice flowers in division 1 and 2 but Tangerine Delight is the best. It is well-formed, has large flowers that are held on strong tall stems with excellent poise. The overlapping flat perianth segments are very white and its flared trumpet is a delightful shade of tangerine orange. Jason Delaney's photos taken in 80 degree heat says it all. Great!! Fertile both ways. . Was 98-32-2.

(Orange Tint x Lutana) **Early Midseason** **\$ 30.00**

TANZEY GIRL 2W-OOY (Spud Brogden, NI, NZ)

One of the most outstanding daffodils grown at Oakwood with vigor, health, tall stems and color. An excellent breeder and very distinctive too. A must for the garden and breeding.

[(Motif x Avenger) x Crimpeline] **Late Midseason** **\$ 6.00**

TARNISHED GOLD 2Y-Y (Dr. John Reed, USA)

Until I first saw this daffodil in flower in 1990 the word golden daffodils could only conger up an intense yellow bloom. But this flower truly is a golden color hence its name. Planted adjacent to Goldfinger for a few years it made that flower seem pale! Would be a trumpet except for its huge perianth inherited from Gold Convention. Breeding deeper color. Can be shown. Formerly Reed 83-36-1.

(Temple Gold x Gold Convention) Midseason \$ 6.00

TERMINATOR 2 Y-R (Davis Jackson, Tas,AUS)

Robust, strong growing large exhibition daffodils. Many best in show awards including 5 years ago at the ADS National. Better blooms are obtained when well-watered and wind protected.

Seedling 15/89 Early-Midseason \$ 6.00

THREE OAKS 1W-Y (Dr. John Reed, USA)

A very consistent show flower and breeder of the highest quality. with a smooth overlapping perianth that has a light yellow corona. An awesome breeder and show flower. Should be grown by all Fantastic-Admired by Peter Ransey. Was Seedling 89-21-1.

(Bravoure x Pops Legacy) Midseason \$ 8.00

THUNDER ROLL 1Y-R (Dr. John Reed, USA)

I saw Uncle Duncan in flower for the first time at Steve Vinisky's place on the World Daffodil Tour 1994. I knew I had to use it in breeding the perfect orange trumpet. Using my deepest colored 1 Y-R seedling in 1995, it was crossed with my first Uncle Duncan bloom. John Pearson rated this seedling as very good and near tops in color for show blooms when he first flowered it. Tall stems show well colored high quality blooms. The overlapping very smooth petals display the deep orange-red trumpets nicely. Named for a catchy county western song sung by one of Sandy's favorite singers, Garth Brooks. Was Reed Seedling 95-111-1.

Uncle Duncan x 87-19-4 (Trumpet Call x Glenfarclas) Early Midseason \$24.00

TOM TERRIFIC 11a Y-R (Dr. John Reed, USA)

Simply put a terrific intermediate daffodil. Small blooms with perfect split coronas on tall, strong stems. It increases well and is healthy. For the garden and show. You'll love it. Won Best in Show in Baltimore two years ago. Named for a childhood cartoon character. Was Reed 95-101-1.

Boslowick x Sunstroke Midseason \$18.00

TRISTAN'S MEMORY 2Y-Y (Dr. John Reed, USA)

Brian Duncan stated many years ago that while Golden Joy was the best 2Y-Y show flower at the time, he had never raised anything worthwhile from it, only from its siblings, Golden Jewel. When this flowered, I was impressed enough to keep it. The tall stems and excellent poise displayed a flower of extremely nice show form. I shared it with Dick and Elise Havens and when I visited in 2000, it was a small stock in their fields, looking even better there. Graham Phillips, when he visited in 2006 showed me a photo of the now larger stock. Bill Lee, our former ADS Journal editor, chose it for a memorial to his late canine companion Tristan. When seen by David Adams in a recent visit to Bill's he was impressed with it too. Very healthy and great in the garden here. Many Best in Show Awards released this year. Was Reed 83-97-1

Golden Joy o.p Midseason \$7.00

TUSCORORA 1 Y-Y (Dr. William Bender, USA)

A highly sought after show bloom. Scarce. Rarely Offered.

Seedling x Gold Convention Early Midseason \$8.00

TWILIGHT ZONE 2YYW-WWY (M D Brogden, NZ)

Excellent smooth show flower, a must for breeders.

Gold Bank x Daydream Midseason \$9.00

VALLEY MOON 1YYW-Y (Colin Crotty, SI,NZ)

I'm attracted to very pale yellow flowers and this is one of the best I've seen. For practical purposes there is no white halo seen here. Very large blooms are held on strong stems with excellent poise! A wide smooth flat perianth graces a tubular trumpet that expands at its opening. Great Flower!!

(Breeding unknown) Midseason \$ 12.00

VERA ROBBINS 3W-GWW (Dr. John Reed, USA)

Named for my wonderful mother-in-law. This is my best show 3W-W. Very round blooms are held high on tall stems. A healthy plant. Was Reed seedling 85-100-2.

(Verona x Achnasheen) Early Late Season \$ 7.00

VERNAL PRINCE 3W-GYY (Tom Bloomer, N. Ire, UK)

Brilliantly colored with tall stems and excellent poise. Great for show and garden.

Shantallow x Woodland Prince Late Midseason \$ 5.00

WAYNE'S WORLD 6Y-O (Dr. John Reed, USA)

In 1984 some of the N. cyclamineus pollen was applied to Monal. Only a few seeds were collected and 3 seedlings germinated. They have been very slow growing but healthy. And worth the wait. Its wide, overlapping, smooth reflexing perianth is the perfect foil for the symmetrical glowing medium sized cup. It has won a number of awards under seedling number. The blooms are of medium size. The late Wayne Steel of California liked Monal (Its seed parent) enough that I had to dig a lot of bulbs of it for him to pot up and pre-cool to give to potential new ADS members. When the bulb of 84- 49-1 first flowered for him, he was excited enough to send an e-mail photo to us. In the same e-mail files downloaded that day we learned we were going to be grandparents. As Monal and this offspring were a small but exciting part of his world, it seems appropriate to register it as Wayne's World. Now consider the best 6 Y-O in the Northern Hemisphere Also with the thought of recent pop movie by the same name. Was Reed 84-49-1.

Monal x N. cyclamineus Early Season \$ 14.00

WESTMINSTER PINK 2W-P (Dr. John Reed, USA)

This flower was in bloom in April when the royal wedding took place in Westminster Abbey. It was named to honor that event. Grown for many seasons, it consistently has given good-sized blooms on tall strong stems with excellent smooth, overlapping petals of pure white and a trumpet shaped cup of a pure light pink. Was Reed seedling 93-20-1.

(Breeding unknown) Early Midseason \$7.00

WHITE COLLAR 1 W-YYW (Dr. John Reed, USA)

From a cross that has given many beautiful flowers. As the flowers age the distinct outer white rim develops on the long trumpet. An excellent show flower with respect to smoothness, petal overlap, and white petal colors, The long trumpet is held well with strong stems and an excellent poise. Was Reed 98-26-10 Registered 2011.

Three Oaks x Irish Affair Mid-Season \$15.00

WHITE STORK 1W-W (Dr. John Reed, USA)

The long narrow trumpet made me think of a stork when I named it. Show quality with wide perianth segments overlapping well all in the same plane. The stems are tall, and strong displaying the flowers with an upward poise. The stems a light green, that I find pleasing. Contrasting stem is the same shade. It can be shown and is a hit in the garden too. Distinctive, slower growing . Was Reed 85-81-1 Registered in 2003.

Pitchroy x Tradewind Mid- Season \$11.00

WINDY CITY 1W-Y (Dr. John Reed, USA)

At the 2009 National ADS Show at the Chicago Botanical Gardens, this daffodil under seedling number received five awards including the White Ribbon and the Rose Ribbon for Best Seedling in show. The White Ribbon "set of three" graced the cover of the June 2009 ADS Journal. Tall strong stems support very wide smooth white petals and a gently flared bright yellow trumpet. The neck is short and poise is excellent. Combining the best features of both parents, it is logical progression in breeding my ideal 1 W-Y. It is very pleasing, consistent, health shoe flower. To honor the Chicago National ADS Show, Bob Spotts suggested the name "Windy City" Was Reed 97-163-1.

Irish Affair Sibling x Three Oaks Early Season \$ 40.00

WOW! 2Y-Y (Dr. John Reed, USA)

The name says it all! That is exactly what I said when I first saw it in bloom and the name has stuck (all the letters are capitalized!) Though of trumpet character, it measures division 2. Its overlapping petals are very wide, smooth and very flat in the same plane and very consistent from year to year and flower to flower. A slow increaser. Its offspring are showing its best characteristics, especially those crossed with Millennium Perfection. Was Reed seedling 93-18-1.

(Goldfinger x Dream Prince) Early Midseason \$ 38.00

WYONG 2W-Y (D Jackson, Tas, AUS)

One of the Jacksons' finest daffodils. Very large on strong stems. Passing its best quality's on to its offspring.

(Jackson 36/83 x 43/86) Early Midseason \$ 17.00

YELLOW IVORY 2Y-Y (Dr. John Reed, USA)

A SUPER smooth show flower. It was awarded a best in show for Kirby Fong, in its first year with him. Very pale long yellow corona sits against a light ivory perianth. With enough time and warmth the corona will develop some pink color. Very consistent from year to year, flower to flower! Was Reed seedling 92-71-1.

(Memento x Nanushca) Early Midseason \$ 8.00

YELLOW SATIN 2Y-Y (Dr. John Reed, USA)

A tall, large outstanding show flower with a name that says it all. The petals overlap but not massive. A refined, slower growing but healthy cultivar. Admired by Bob Huesman. Was Reed 83-6-1.

(Meldrum x Gold Convention) Midseason \$ 7.00

ZOMBIE 11a W-Y (David Jackson, Tas, AUS)

Very large, impressive blooms for garden and show. Supported on strong stems.

Jackson 116/77 x Dally Mollinger Midseason \$ 10.00

ROYAL HORTICULTURAL SOCIETY SYSTEM OF DAFFODIL CLASSIFICATION

The classification of daffodils has changed many times over the years. The present system combines the RHS classification of thirteen divisions based on form and species heritage with Dr. Throckmorton's color coding from the American Daffodil Society. This combined system gives us a very useful tool for describing daffodils quickly. A single letter denotes a color and its appropriate location as found in the flower, first in the perianth and then in the corona. W=White Y=Yellow G=Green O=Orange R=Red P=Pink

For example: Arctic Gold is classified as a 1Y-Y. It is a trumpet daffodil with yellow petals and a yellow corona. Misty Glen is classified as a 2W-GWW. It is a large-cupped daffodil with white petals and a green-eyed white cup. First Born classified as a 6Y-GYP. It is a cyclamineus hybrid with swept-back, yellow petals and the corona has a greenish eye with a small transition of light yellow going to a deep pink color extending to the edge of the cup.

- | | |
|-------------|--|
| Division 1 | Trumpet Daffodils: The trumpet (corona) is equal to, or longer than, the petal (perianth) segments. |
| Division 2 | Large-Cupped Daffodils: The cup (corona) is less than the length of the petals (perianth) but more than a third. |
| Division 3 | Small-Cupped Daffodils: The cup (corona) is equal to, or less than a third, of the petal (perianth) length. |
| Division 4 | Double Daffodils: This division is for all forms of double flowers where there is more than one set of petal or coronal segments, or both. |
| Division 5 | Triandrus Daffodils: hybrid daffodils that predominate with <i>N. triandrus</i> characteristics. |
| Division 6 | Cyclamineus Daffodils: hybrid daffodils that predominate with <i>N. cyclamineus</i> characteristics. |
| Division 7 | Jonquilla Daffodils: hybrid daffodils that predominate with <i>N. jonquilla</i> characteristics. |
| Division 8 | Tazetta Daffodils: hybrid daffodils that predominate with <i>N. tazetta</i> characteristics. The stems usually will have multiple flowers. Also known as poetaz daffodils. |
| Division 9 | Poeticus Daffodils: hybrid daffodils that predominate with <i>N. poeticus</i> characteristics. |
| Division 10 | Bulbocodium Daffodils: hybrid daffodils that predominate with <i>N. bulbocodium</i> characteristics. |
| Division 11 | Split-corona Daffodils: the cup (corona) that is split for more than a half of its length. This division has two subdivisions: |
| 11a: | Collar Daffodils have the corona segments opposite to the perianth segments. |
| 11b: | Papillion Daffodils have the corona segments alternating to the perianth segments |
| Division 12 | Miscellaneous Daffodils: those that cannot be classified within the preceding divisions. |
| Division 13 | Species Daffodils: those distinguished solely by botanical name—the wild ones. |
