Introduction

Welcome to our second catalogue. It was very gratifying the support we received in our first year, I hope that your bulbs grew well for you and we look forward to your continued support.

We were in the very fortunate position last year in having the North Island National Show in Hamilton, only a ten minute drive away. Results wise we had a great show. Champion bloom with PR 15:7A (pictured on our back cover) and Reserve Champion with Luminosity was very satisfying. In addition we also collected seven other Premier Blooms. Another highlight of the show for us was our winning entries in the 12 single blooms in the open, the 6 singles in the intermediate division and the nine blooms in the miniature. We are sure that this is the only time that one exhibitor has won all three of these major classes at a National Show.

A number of growers visited the nursery during the show, we hope that you had an enjoyable time, it was our pleasure to host you.

The South Island National Show held in Te Anau was at the end of our season so blooms were getting scarce for us. Despite this we still managed to get four Premier Blooms and win the best multi head stem in the show with the newly released Yellow Dello.

In this years catalogue we are releasing two of Peter Ramsays raising in Cameo Glen and Sir Slick. Both are outstanding varieties and should do well on the show bench for many years.

We are also proud to introduce another six varieties raised by Denise and Neil McQuarrie. The McQuarries set a very high standard for a bloom to be named, these are all proven varieties and should continue to do well as they are more widely grown.

In addition we are proud to introduce four new varieties raised by New Zealand hybridists. Flight Path is very well known and already has an FCC as an exhibition flower. Ihakara Goldie and Delltone are newly registered from Wilf Hall whilst Whitford Gem was the only miniature registered by the late Max Hamilton.

We are certified for export and will be able to send bulbs to both the USA and United Kingdom.

We are growing many other varieties that are not listed. Please enquire if there is a variety that you want that we may have stocks of.
